BILLING CODE 6717-01-P

FEDERAL ENERGY REGULATORY COMMISSION

FFP Project 8 LLC

Project No. 14254-000

NOTICE OF PRELIMINARY PERMIT APPLICATION ACCEPTED FOR FILING AND SOLICITING COMMENTS, MOTIONS TO INTERVENE, AND COMPETING APPLICATIONS

On August 11, 2011, FFP Project 8 LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project located on the Wax Lake Outlet in St. Mary Parish, Louisiana. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed in-stream hydrokinetic project would consist of: (1) up to 4,928 SmarTurbine generating units installed in arrays on the water bottom; (2) the total capacity of the installation would be up to 197,120 kilowatts; (3) flexible cables would convey each arrays power to a metering station; and (4) a 13-mile-long, 34.5 kilo-Volt transmission line would interconnect with the power grid. The proposed project would have an average annual generation of 448,295,232 kilowatt-hours (kWh), which would be sold to a local utility.
